## Introducing Axiom Home Care

At Axiom Home Care, we are passionate about delivering the highest-quality care and support, the same type of care **we would want for one of our own family members**. We believe the best care you or your loved one can receive is care that can be delivered to you in the familiar surroundings of your own home. Home is where your treasured memories are and where you feel most comfortable.

Axiom Care was started in 2016 to provide high quality care services for the care industry and community. Company has grown from a small team to a large company of committed and highly skilled Managers, Nurses, Carers, Domestic Assistants who works in care homes and community in Hertfordshire, Buckinghamshire, Middlesex, and West Sussex in a short period of time.

Our Home care services are committed to providing high-quality care that is fully **regulated by the Care Quality Commission (CQC)**.

Our preferred minimum care visit is 30 minutes, and we travel in our own time, not in client's caring time. This allows our highly trained Care givers the time to listen, get to know our client well, complete tasks properly, and observe any changes in health or wellbeing and respond accordingly. Our mission is to provide the highest quality of care at home with the best candidates in the industry.

## Our Home Care services

Our wide range of services support older and young adults continue to live happily and independently at home. We offer flexible solutions personalized to meet clients' needs from **30 mins to 24 hours a day**.
